

Attic ladders Döcke

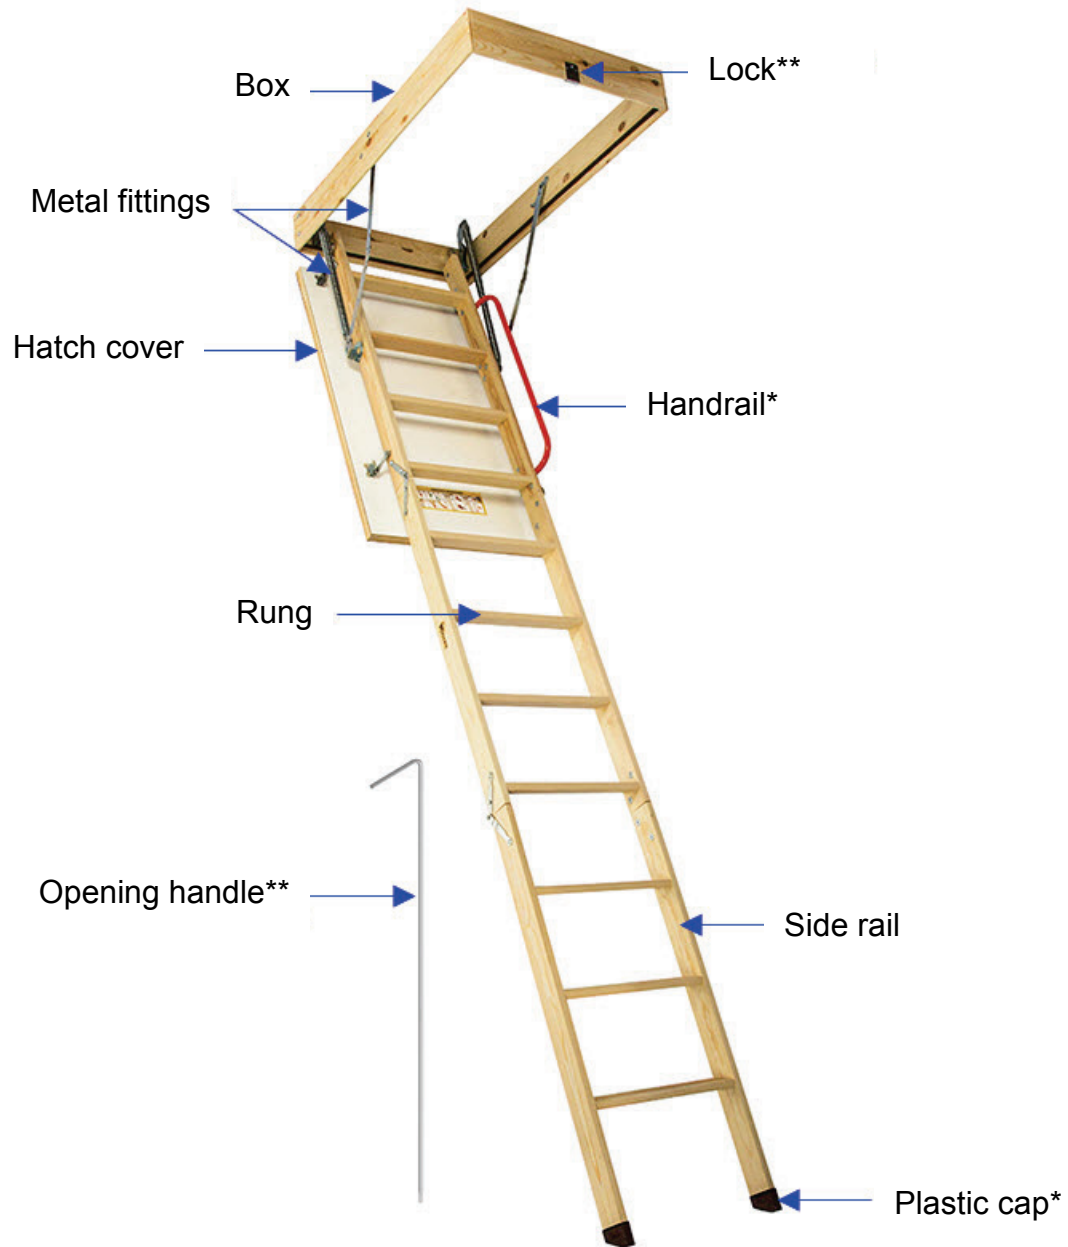

1. General information.

Attic ladders Döcke are wooden three-section folding attic stairs with a hatch. Produced in four versions. Made of coniferous wood, polymer materials and metal fittings.

2. Purpose of the product.

Installed in the attic floor, in order to move between the room and the attic, as well as saving space by folding.

3. Appearance and basic elements

* – Not included, sold separately.

** – Available in a bundle for all COMFORT, STANDARD and LUX

4. Geometric, physical-mechanical and visual characteristics.
